SailPoint

IdentityIQ

Intelligent Cloud Identity Platform

Software Solution

By implementing **SailPoint IdentityIQ**, you can quickly mitigate risk and fortify your security efforts, implement policies to maintain compliance, and automate IT tasks to improve operational efficiencies and save on IT costs.

Secure Your
Digital Transformation

Digital transformation, proliferating regulations, and pervasive cyber threats are creating challenges for enterprise organizations across the globe.

To address these challenges SailPoint IdentityIQ ensures only the right people get access to the right data, empowers your compliance team to respond to audits with confidence, and takes the burden off your IT department with the help of automation.

Identity at Scale

Designed to scale to the most sophisticated enterprise requirements, SailPoint IdentityIQ enables you to gain complete visibility and control of access for all your employees, partners, contractors, as well as non-human users including bots.

SailPoint IdentityIQ sits at the center of your security and IT program to extend deep governance capabilities to all your mission-critical applications and systems.

Outlier Detection

SailPoint IdentityIQ Modules

The SailPoint IdentityIQ platform brings you the power of enterprise-grade identity governance coupled with the convenience of delivering your identity program from the cloud or your own data center.

IdentityIQ Compliance Manager
Automate access certifications, policy management, and audit reporting to streamline compliance processes and improve the effectiveness of identity governance – all while lowering costs.
- Maintain continuous compliance by reviewing user access
- Enforce policies that prevent inappropriate access
- Ensure audit-readiness and demonstrate compliance

IdentityIQ Lifecycle Manager
Manage changes to access through user-friendly self-service requests and lifecycle events for fast, automated delivery of access to users.
- Empower users to request and manage access to resources
- Detect changes in a user's role and automatically adjust access

IdentityIQ Password Manager
Provide an intuitive self-service interface for users to manage their password without the need for helpdesk calls.
- Enable users to manage and reset their own passwords
- Enforce strong password policies across all applications

IdentityIQ File Access Manager
Extend identity governance to files by discovering where sensitive data resides, applying appropriate access controls, and real-time visibility to data stored on-premises or the cloud.
- Identify and classify sensitive data
- Monitor user access and policy violations in real time
- Analyze and model user access to resources

Flexible Deployment Options

SailPoint provides you the flexibility to deploy IdentityIQ in a way that best meets your digital transformation needs including:

- On your organization's own Amazon AWS or Microsoft Azure instances
- As a cloud managed service supported by SailPoint or our certified SailPoint Partners
- From your dedicated data center or private cloud

Artificial Intelligence and Machine Learning

Apply advanced governance capabilities, using the power of SailPoint Predictive Identity to discover suspicious or anomalous access, maintain continuous compliance and enjoy greater productivity across the entire organization. Utilize generated insights and recommendations to help guide decisions around your security and compliance related efforts.

- Receive recommendations for approving access
- Build peer groups based on attributes and access patterns
- Identify users with risky access

Connect to Everything Across Your Hybrid IT Environment

IdentityIQ provides a centralized set of controls and visibility to secure all your applications, mainframes, cloud infrastructure and data resources with connectors and advanced integration modules.

IdentityIQ also provides standards-based connectors to additional applications that leverage information exchange protocols such as REST, SCIM, JDBC, CSV and LDAP.

Professional Services and Support

Whether you need implementation assistance, ongoing configuration, or performance management, our goal is expediting your deployment and maximizing your identity investment.

Training

SailPoint's Identity University provides training and certification designed to increase productivity across your teams and ensure the most successful implementation.

Our Industry Leadership

SailPoint maintains the highest leadership position across all major analyst reviews and is relied upon by the largest enterprises to govern millions of identities, billions of points of access, and tens of thousands of applications and data sources.
